Burger Van in Winn Rd

Dear Sir/Madam,

Please be advised that this Association wishes to vehemently oppose this application on the following grounds....

- The main objection is the likelihood of *public nuisance* given the vehicle would be sited right on the edge of a residential area. Many residents are elderly and the activity of this type of facility is likely to generate late night noise and nuisance at the very least. There is also the question of cooking smells emanating, in particular the strong odour of onions!
- There is also the likelihood of *public disorder* as a result of people gathering at such late hours and having most probably been drinking beforehand.
- Similarly *public safety* is likely to be compromised with people gathering and spilling on to the street, with it also being a potential magnet for ASB.

We understand our Ward Councillors are in support of our objections and we submit this on behalf of the local community.

Thanking you,

A handwritten signature in blue ink that reads "Tony Gillen". The signature is written in a cursive, flowing style.

Chairman
