

21/01869/FUL

*Jubilee Sports Centre (Building B18) University Road Southampton
Erection of extension to existing Jubilee Sports Centre (Building B18) to provide new sports facilities including fitness suite, climbing wall, studios and ancillary cafe area, and external plant compound; creation of pedestrian access to Valley Gardens; creation of new surface water drainage link to Western Watercourse; together with associated drop-off, cycle parking, e-scooter parking, landscaping and new public realm.*

Highfield Residents' Association approves the extension of the Jubilee Sports Centre at Southampton University. Extended Sports and Wellbeing facilities are needed as the current provision does not have the range of sport or space to meet the current needs of students. HRA particularly welcomes the fact that the local community can also benefit from these sports facilities.

The University has ensured that HRA has been informed and consulted on these plans since their inception.

Of particular note are the increased capacity for cycle lock-up spaces, extensive landscaping which will improve the current street-scene and includes native planting, matching of colours and materials in the design and easy access to bus routes. The building will be in harmony with its surroundings.

HRA fully supports the Planning Application.

Barbara Claridge
